PROFESSIONAL EXPERIENCE

Assistant Manager | **Coforge BPS | May 2026 - Present**

- Lead Business Intelligence and Workforce Management operations, integrating capacity planning, headcount management, forecasting, billing analysis, delivery planning, and SLA monitoring.
- Manage Team Leaders and 13 professionals; coordinate workforce planning and reporting that supports 400+ employees.
- Develop dashboards, scorecards, and management reports that improve visibility into staffing, delivery performance, and operational risks.
- Coordinate client communication, stakeholder alignment, and escalation resolution across operational teams.
- Build Python automation to streamline recurring reporting and operational workflows.

Senior Team Lead | **Coforge BPS | Oct 2025 - May 2026**

- Led operational governance, forecasting, delivery oversight, and escalation management for service operations.
- Served as Program Owner for the Model Validation workstream, partnering with technology teams on business applications and workflow enhancements.
- Created dashboards and performance analysis for senior stakeholders; used Python and VBA to automate validation and reporting.
- Designed and implemented Attribute Analyzer and Validator tools to automate quality validation and reduce manual effort.

Team Lead | **Coforge BPS | May 2024 - Sep 2025**

- Led a 26-member delivery team in the Walmart Product Enrichment Program across 26 PTGs, three product categories, and 15 workstreams.
- Coordinated cross-functional execution involving 250+ associates and oversaw delivery of 160,000+ products within a three-day operational window.
- Owned the Model Validation workstream and partnered with stakeholders to maintain delivery quality and execution governance.

Catalog Lead | **Amazon Private Limited | May 2022 - May 2024**

- Managed US and Canada Vendor Live Chat operations and catalog activities, including creation, validation, deployment, verification, and product content updates.
- Handled product updates covering titles, images, variations, and specifications in line with standard operating procedures and quality requirements.
- Achieved 134% productivity while maintaining 100% quality and zero operational errors; recognized as a Top Performer.

Senior Data Analyst / Subject Matter Expert | **Tata Consultancy Services (TCS) | May 2016 - Jan 2022**

- Progressed from Data Analyst Associate to Senior Data Analyst / Subject Matter Expert supporting Small Business customer operations.
- Managed complex cases, escalations, client governance interactions, associate mentoring, and process improvement activities.
- Used Oracle platforms and APEX dashboards to support operational tracking and business processes; facilitated new-hire training after Train The Trainer certification.
- Contributed to backlog reduction of approximately 2,000 pending orders and represented TCS in Robotic Process Automation initiatives.
- Nominated by the client to participate in process-improvement programs.

EDUCATION

Bachelor of Commerce (Corporate Secretaryship) | Apollo Arts and Science College | 2013 - 2016
